

BEACHWALK BREAKFAST BLEND

When we go
down to the low-tide line, we enter a world that is as old as the earth
itself — the primeval meeting place of the elements of earth and water,
a place of compromise and conflict and eternal change.

The edge of the sea is a strange and beautiful place. For no two successive days is the shore line precisely the same.
Today
a little more land may belong to the seas, tomorrow a little less.
Always the edge of the sea remains an elusive and indefinable boundary.

— Rachel Carson
